AUTHENTIC DOWN-TO-EARTH STREETWEAR

BAPTIST | B. is the youngest label of Bieber Fashion – a fashion house with a long tradition and history. It all started in 1908 when Johann Baptist Bieber, the namesake of the brand, founded his custom tailor atelier. It started small and grew rapidly. In Aschaffenburg at the northern top of Bavaria, a well-known and traditional area in the fashion industry, Bieber focused on coats, jackets and leisure wear. Since the foundation it all stays in family. Bieber is known for professional work and high quality for reasonable prices. Now the youngest generation of the family started the label BAPTIST | B., keeps up this tradition and brings the values and quality of the former custom tailor atelier in today's life.

With a traditional background, a long standing expertise and selected materials BAPTIST | B. guarantees highest quality. Respecting the materials, our customers and ourselves, BAPTIST | B. stands for innovative, progressive design and a mixture of elegant and casual styles. Designed in Germany, produced in Europe. We love the life and like to share our passion for music, art, travel and pleasure through the label and fashion of BAPTIST | B.
